CAMPAIGN OBJECTIVE

What this content should achieve

Create fashion content that makes Shaba Closet feel expressive, useful, and relevant to the creator's own style instead of looking like a standard advertisement.

Target audience

Fashion-conscious Ethiopian shoppers looking for outfit inspiration, wider product choice, and confident personal style.

Core message

Style is personal. Shaba Closet gives you more ways to build a look that feels like you.

CREATIVE DIRECTION

Make it feel native to your audience

Use these directions as a starting point. Do not copy them word-for-word. Your own voice and idea are part of what Kaba Bounty is paying for.

Content angles

- Build one outfit around a Shaba Closet item.
- Show three ways to style one piece.
- Create a before-and-after outfit transformation.
- Share an honest review of fit, styling, or who the item suits.

Hook starters

- One piece, three completely different looks.
- This outfit looked basic until I changed one thing.
- If you do not know what to wear this week, start here.
- I tried styling this the way I would actually wear it in Addis.

RECOMMENDED FORMAT

15-60 seconds • Vertical 9:16 • Clear voice • Strong first 3 seconds

Film in good light, keep on-screen text readable, and make the business or product easy to identify. Edit for retention, but do not make the video feel like a television advertisement.
